### **Ever thought of enrolling your child or children into martial arts?**

We work in conjunction with the school to offer a school club in martial arts at much fairer rate than our standard classes that we hold at centres and halls.

Our martial arts classes offer a good all round experience of martial arts via our unique programme! We do have limited places in the class. We price our classes on either a termly or monthly rate for children to attend our class.

We at ZKS Martial Arts work from a main discipline in martial arts called "Taijutsu". We have an unusual structure to most other clubs and pride ourselves on getting the best out of an individual.

We offer a range of classes in around the area and if your child feels that they would like to take their interest further then by all means look at our website [www.zksma.co.uk](http://www.zksma.co.uk).
