

Things to remember:

- Bring your book bag and a water bottle every day
- Send your child with his/her P.E. kit on a Monday, leave it on their peg and we'll send the children home in it on a Thursday.
- If your child is being collected by someone different to our normal arrangements, please sign the form inside the classroom door.
- Please make sure all your child's belongings are labelled
- For weekly planning and other information concerning Class 1, please check the noticeboard just inside the gate.

- INSET Friday 24th May
- Half term 27th May - 31st May
- Little Gaddesden Fete- Sunday 9th June
- Sports week- June 24th-28th
- Whole school trip to Phasels Wood Wed 26th June
- Sports Day-Fri 28th June 10am
- Friday 19th July -end of term- finish at 1.30pm

Little Gaddesden Primary School

"...curious and creative thinkers, independent and enthusiastic
learners and confident individuals..."

Summer Term 2019 Class 1-Reception

Class 1

We had such a great time learning last term and we've really enjoyed our Forest Schools adventures, which will continue this term

(Tuesday afternoons)

If you have concerns or questions please see a member of the Reception team at the beginning or end of the day.

This term we will be learning.....

Literacy

Last term, we covered all the two and three letter graphemes (letters) that make one phoneme(sound) like er, ou, oo igh air etc. We will be moving on to split digraphs and will revise and use all our sounds and common exception words (tricky words) in some extended writing involving simple punctuation. Using the Sounds-Write programme, your child will continue to write cursively, working towards sentences and stories!

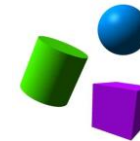

Reading

The children will continue with Guided Reading sessions on a weekly basis where we read as a group and discuss what we've read. They will also be reading individually to an adult once a week. They are given a

reading book daily, please share this book every day and write in their reading record. Thank you.

Mathematics

In Maths this term, Class 1 will be continuing to manipulating numbers up to 20 and beyond, calculating with addition and subtraction, sharing, doubling and problem solving! As well as this we will be exploring shape, space and measures including 2 and 3D shapes, positional language, capacity, weight, and length.

Topic

Lots of our children were interested in learning more about Space and the planets so we're having this as our new topic until half term. After this, we will find out what they would like to find out about next!
