

Little Gaddesden C of E Primary School

Headteacher: Lorna Elkes

Newsletter 18th June 2020

Despite the weather this week, the children have still managed to enjoy a wide range of activities outside, in between the showers.

Thank you for all your prompt responses to my survey regarding welcoming more pupils back to school. In Dacorum we are very lucky that the local schools' network is very supportive of each other and provides many opportunities for sharing good practice. In such unprecedented times, this has been a vital source of information and reassurance that we are continuing to meet the needs of our pupils.

As indicated last week, my intention is that all year groups have the opportunity to return to school for some time before the end of term. Details of this will be emailed separately today and can also be found [here](#).

We received a lovely letter from DENS thanking our school for our donations of 237kg to their Foodbank Services over the last year.

Wellbeing week

We are all looking forward to our Wellbeing week, next week. We all recognise the need to look after our mental health and especially during the limitations we are having to manage currently. There will be a wide range of activities for the children to choose from and complete either: independently, with someone from their household or collaboratively via Google classroom. Please do send in photos of the week as we love to see them. Children will not be expected to complete all the activities next week. They will be able to continue to access and enjoy these over the next few weeks.

For some of the activities, pupils in school will need to bring in their own box (shoe box or cereal box) and a lidded jar. These will need to be in a plastic bag and we will sanitise the items in school before they are used.

Wishing you all a drier weekend.

Lorna Elkes
